about the book sporting the provocative subtitle why the future of business is selling less of more the long tail is a watershed moment in how we think about business in the internet age twentieth century businesses founded on the idea of hits emphasized the top ten twenty fifty pick a number of almost anything that could be sold movie box office music or new cars were judged by sales rankings and those rankings were equated with quality desirability and value author chris anderson in many ways a true man of the 21st century has a different theory he posits that in an age of vast digital storage capacities internet staples like amazon itunes

ebay and others have forever altered how customers consider what to buy in 2004 as editor in chief of wired magazine he first wrote an article entitled the long tail which asserted that endless choice creates unlimited demand translation if you have everything in stock you can keep selling it in this new reality instead of a business model driven solely by hits anderson held that the new digital model would depend as much or more upon niche buying because product that took up no physical space could be kept available for sale virtually forever meet the author tom szollosi graduated from ucla in 1972 with a degree in english literature after a short stint in advertising he wrote for television beginning in 1976 and has continued to the present logging over 100 episodes of both drama and comedy tom has also written five motion pictures four novels and taught screenwriting at ucla extension for six years tom loves baseball writing books and politics though not necessarily in that order most recently he has been exploring the world of e books he is married has two sons and lives in los angeles excerpt from the book chris anderson himself says it best in the long tail the theory of the long tail can be boiled down to this our culture and economy are increasingly shifting away from a focus on a relatively small number of hits mainstream products and markets at the head of the demand curve and moving toward a huge number of niches in the tail these niches according to anderson are everything else no wonder it s long very little of what s out there is hot at any particular moment what is hot a hit comprises the front or head of that demand curve everything else is part of the tail you can sell less of a hit if small quantities of all those other things keep moving and the research says they do first anderson explains how the internet has unified elements of a supply chain revolution that had been brewing for decades at lightening speed tv and top 40 radio lost much of their taste shaping clout to the computer and its secret weapon the internet buy a copy to keep reading

highlights how nihilistic groups are harnessing the power of the internet to reach a potential global audience of billions

long ago rabbits had long tails chipmunks had no stripes and hummingbirds ate fish what happened to change all that

two seismic forces beyond our control the advent of 2 0 and the inexorable influx of tech savvy millennials on campus are shaping what roger mchaney calls the new digital shoreline of higher education failure to chart its contours and adapt poses a major threat to higher education as we know it these forces demand that we as educators reconsider the learning theories pedagogies and practices on which we have depended and modify our interactions with students and peers all without sacrificing good teaching or lowering standards to improve student outcomes achieving these goals requires understanding how the indigenous population of this new shoreline is different these students aren t necessarily smarter or technologically superior but they do have different expectations their approaches to learning are shaped by social networking and other forms of convenient computer enabled and mobile communication devices by instant access to an over abundance of information by technologies that have conferred the ability to personalize and customize their world to a degree never seen before and by time shifting and time slicing as well as understanding

students assumptions and expectations we have no option but to familiarize ourselves with the characteristics and applications of 2.0 essentially a new mind set about how to use internet technologies around the concepts of social computing social media content sharing filtering and user experience roger mchaney not only deftly analyzes how 2.0 is shaping the attitudes and motivations of today's students but guides us through the topography of existing and emerging digital media environments applications platforms and devices not least the impact of e readers and tablets on the future of the textbook and the potential they have for disrupting teacher student relationships and if appropriately used for engaging students in their learning this book argues for nothing less than a reinvention of higher education to meet these new realities just adding technology to our teaching practices will not suffice mchaney calls for a complete rethinking of our practice of teaching to meet the needs of this emerging world and envisioning ourselves as connected co learners with our students

the 80 minute mba is your short cut to business brilliance a traditional mba is for either the time rich very wealthy or lucky few with a generous corporate sponsor so what happens if you want to get a hit of high quality business inspiration without spending two years back at school the 80 minute mba is the gateway to fresh thinking in less time than it takes a standard meeting to get past coffee and biscuits managers need the encouragement to think differently not in the same straight lines the 80 minute mba is an injection of inspiration creative thinking and dynamic approaches which will help you see the world of business differently
